

# Five platforms. One portfolio.

ARVECT manufactures turbine and electric interceptor platforms in the European Union, with a focus on European components. Choose a configured interceptor or a platform for your own integration.

6,000+ m<sup>2</sup>

Production space

EU-based manufacturer

5

turbine & electric platforms

Small-scale production and field testing. We have 6,000+ m<sup>2</sup> of production space and highly integrated manufacturing of mechanical and electrical components. This manufacturing capability supports our turbine and electric platform portfolio.

| Parameter          | I-1           | I-2           | I-3                  | E-1          | E-2                  |
|--------------------|---------------|---------------|----------------------|--------------|----------------------|
| Propulsion         | Turbine       | Turbine       | Turbine              | Electric     | Electric             |
| Max speed          | 676 km/h      | 832 km/h      | 995 km/h             | 294 km/h     | 351 km/h             |
| Range              | 37 km         | 85 km         | 107 km               | 55 km        | 53 km                |
| Operating altitude | Up to 6,000 m | Up to 6,000 m | Up to 6,000 m        | On request   | On request           |
| Guidance options   | Optical / IR  | Optical / IR  | Optical / IR / radar | Optical / IR | Optical / IR / radar |

Speeds and ranges are model estimates, not flight-test results. Max speed is the upper model estimate; maximum range refers to a different flight condition and is not the range at max speed. These are not simultaneous maxima. Range is not an interception radius. Configuration and altitude capability remain subject to validation.

Configured interceptor

An ARVECT interceptor in a configuration agreed with you. We select the platform and guidance option and define the delivery scope for your programme.

Limited quantities of standard configurations are held in stock. We confirm current availability and agree delivery times individually according to configuration and quantity.

We provide technical and service support after delivery. Its scope, terms and responsibilities are agreed with each customer as part of the programme.

Platform for your own integration

An ARVECT platform for integration by your team. We agree the division of responsibilities and provide detailed integration information under NDA.
